Management Policy for  
Covid-19**

# **Behaviour Management Policy for Covid 19**

## Policy Statement

This policy is written as an addition to our Behaviour Management Policy, which forms part of our full policy document and can be found on our website - [www.setyoursights.net](http://www.setyoursights.net)

This policy is valid from September 2020 and will be ongoing during the existence of Covid-19 measures.

Set Your Sights is committed to creating an environment where all staff consistently manage and encourage positive behaviour, with your child's safety and wellbeing the primary priority. This addition to our policy document addresses the changes required to support us in implementing new rules and routines, which are based on the government guidelines around social distancing and infection management.

The addition to our Behaviour Policy will be regularly reviewed and updated to reflect changes to the government guidance. Once deemed appropriate, this policy will be removed.

## Procedures

Our behavioural expectations of children within our care will now include the following:

- Hands washed upon arrival and as appropriate during the session
- Communal items are not touched unless permission is given
- Hair tied back where possible
- Surfaces and handles are cleaned regularly
- Tissues are put in bin using 'Catch it, Bin It, Kill It' advise
- No personal belongings will be brought into settings
- Children use the toilets provided, following the guidance of Set Your Sights Leaders
- Everyone stays in their allocated bubble for the duration of their session and moves around the setting following the provided guidance
- If you feel unwell, you speak to an adult immediately
- If a child tests positive for Covid-19, we would expect that child to remain at home for at least 10 days, or until recovered, whichever is longer.

We will ensure that children are aware of these expectations but would also expect parents to reinforce these.

Leaders will ensure that they:

- Make the behavioural expectations clear to all children
- Understand the constraints around asking younger children to social distance
- Have regular visual reminders of the updated expectations
- Encourage positive behaviour
- Follow the hand washing and personal hygiene rules themselves at all times

Where it is deemed that a child is not following the expected behaviour guidance and they are putting themselves or others at risk, parents/carers will be asked to collect their child. We will then review the behaviour expectations with parents/carers and agree a plan for the return of the child to the before or after school club.

Continued non-compliance to the expectations may result in your child being excluded from the before and/or after school club.

This policy will be reviewed monthly and in line with new government guidance. This policy was updated on 24th February 2021.
